### Product Description

#### Description

Welcome to the world of dental technology! As a dependable manufacturer of dental products, we take immense pride in introducing our revolutionary product: Aesthetic and Strong Zirconia Crown. Our zirconia crown is one of the best-selling dental products that has been recognised and widely accepted by dental care providers worldwide.

Our Aesthetic and Strong Zirconia Crown is crafted using state-of-the-art dental technology and modern techniques. It is meticulously designed to deliver strength, durability and a flawless aesthetic appeal. Our crown is made from the highest quality zirconia, which has proven to be one of the toughest materials in the dental industry. Our crown is available in various sizes, shapes and shades to match your every need and taste.

Our Aesthetic and Strong Zirconia Crown is perfect for patients who are seeking a comfortable and high-performing alternative to conventional dental crowns. It offers a perfect blend of durability, aesthetics, and affordability, which makes it a favourable option for both dental care providers and patients.

One primary advantage of our Aesthetic and Strong Zirconia Crown is that it offers longevity to our dental care providers' practice, while providing comfort and satisfaction to their patients. Our crown ensures an extended warranty period and can also be customised to suit your patient's needs.

Our Zirconia Crown is the ideal solution if your patient is apprehensive about undergoing treatments that are not appealing. This Crown is designed to provide a natural and aesthetic appeal, close to a patient's natural teeth, thus restoring their confidence in their smile. Our Crown has a unique design that also helps it blend perfectly with surrounding teeth.

A special feature that sets our Aesthetic and Strong Zirconia Crown apart from the rest of the pack is the ease of use. It's quick, smooth, clean and it requires less time to prepare and fix the crown. We take pride in providing our clients with the

Our Product Introduction

latest dental technology, and our crown is supported by years of research and development. Our Aesthetic and Strong Zirconia Crown is perfectly safe and biocompatible, making it ideal for sensitive mouths.

We take customer satisfaction seriously, thus ensuring that our clients' needs are met. High-quality material, excellent customer support, swift delivery, and affordable pricing are some of our best assets. Buying our Zirconia Crown guarantees you value for your money and peace of mind. Moreover, we can tailor our crown to fit your requirements, whether it is colour, size, or design.

In conclusion, if you're looking for a dependable, durable and aesthetically pleasing dental crown, our Aesthetic and Strong Zirconia Crown is the right solution. It is affordable, easy to use, safe and preferred by dental practitioners and patients worldwide. Order a sample today and take your business to the next level with our high-quality dental products.

#### Production Introduction:

We fabricate Aesthetic and Strong Zirconia Crown with high quality and reasonable prices. Options for zirconia crowns include Zirconia Solid, Zirconia HT (High Translucent), and Zirconia Layered. Zirconia Solid is monolithic and is the strongest material available. It's particularly good for patients with clenching or grinding problems and is most suitable for posterior crowns and bridges. Zirconia HT is made from a stronger material than that of PFM restorations but still has a natural translucency and excellent esthetics. It's perfect for anterior crowns and for bridges up to 3 units. Zirconia Layered is another extremely strong material suitable for bridges and crowns.

#### Product Parameter

Customized

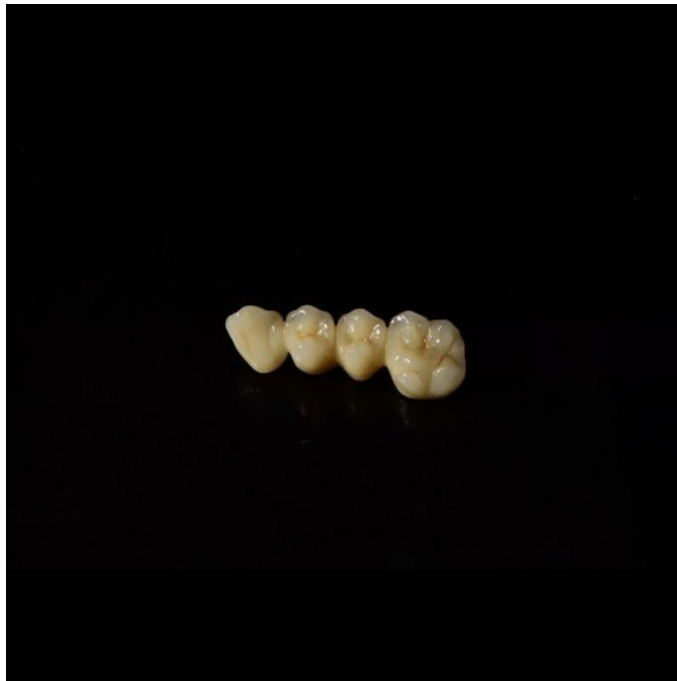

#### Product Feature and Application

Characteristics of zirconia restorations:

- Combination of highest esthetics, strength and flexibility for anterior and posterior cases.
- Less tooth preparation is required
- No metal to show/no unsightly black lines at gingival margins
- Demonstrate outstanding biocompatibility in the mouth
- Easily be adjusted chair-side

#### Indications:

- Full-coverage crown and bridge restorations
- For a maximum bridge span of 47mm
- Implant custom abutments
